

for tourism projects.

Giving details of the 408 projects, Mr. Seaga said that 13 were already in production covering the areas of garment manufacturing, plastics, horticulture, ceramic tiles and

location requirements.

The timetable for the actual implementation of these 15 projects would be within one to five months. These projects included food packaging, garment manufacture, food

the bulk of these projects would not reach their stage of implementation until 1982 and in some cases 1983, due to the time between the conception of the idea and the actual implementation of the project. (Continued on page 2)

Prime Minister Edward Seaga (right) in conversation with Industry and Commerce Minister Douglas Vaz at the launching of Jamaica National Investment Promotion Limited. At left is the Hon. Carlton Alexander, Chairman of JNIP and Co-Chairman of the joint U.S./Jamaica Business Committee. Public Utilities and Transport Minister Alva Ross looks on.
